Osenburg Bros., of Phoenix, saddle and harness makers, have on hand a more complete and larger stock of goods in the line than has ever before been brought into this city. Their trade is penetrating in every direction where the demands of the stock ranch require strong, first-class work. Their front horns or saddles are almost indistinguishable, and a large part of their work they warrant for a year. They are prepared to manufacture the Cheyenne saddle, or the styles preferred by stock men of Texas, Colorado or California, and make to order anything in their line. Bridles, harness, etc., are kept on hand and made to order. A sufficient force of first-class workmen is kept to fill all orders without delay. Ranchers and stockmen will find their goods superior to all imported, shoddy material, and their own interests recommend our local manufacturer.
